SUMMARY

Accomplished Full Stack Web Developer with a strong foundation in both frontend and backend development. With 4 years of experience in web design and 2 years specializing in MERN stack development, I possess a diverse skill set and a passion for leveraging technology to solve complex problems. As a proactive learner, I am constantly exploring new technologies and best practices to stay ahead in the ever-evolving field of web development. Skilled in MongoDB, Express.js, React.js, and Node.js, I am well-equipped to deliver high-quality, scalable solutions that exceed client expectations.

FEATURED PROJECT

◈ Event too-Event React Project

- Chatting Application
- Calculator
- Search
- Todo - App
- Guessing Game
- Form
- Responsive Navber
- Dashbord

WORK EXPERIENCE

◈ Project-My Portfolio

Additionally, I've created a personal portfolio that highlights my web development work. It acts as a reference point for my abilities and offers actual samples of my work.   Live Link

◈ E-Commerce (Orebi)

Orebi is a multi-vendor e-commerce which I am developing. It is my responsibility to handle front-end and back-end. My Role is to develop components, Redux, forms, routes, hooks, and API data retrieval in order to present data on websites while keeping the precise user interface.   Live Link
